

Supercharge Your 3 Series MDO with Extra Bandwidth

**OFFER
VALID UNTIL
MARCH 31ST**

See More. For Less.

With the purchase of a new 3 Series MDO oscilloscope, you'll receive FREE extra bandwidth – boosting your instrument to the next performance tier at no additional cost.

Why Engineers Choose the 3 Series MDO:

- ✓ All-in-One Debug Tools – Get or add what you need, when you need it: Up to 1 GHz bandwidth, 16 digital channels (MSO option), DVM & Frequency Counter (free with registration), Arbitrary/Function Generator, Serial Protocol Decode and Triggering, Automated Power Measurements
- ✓ Best-in-class Probes – TPP Series passive probes with only 3.9 pF capacitive loading are included at no extra cost.
- ✓ True Spectrum Analyzer (up to 3 GHz) – Not just FFT. A real, built-in spectrum analyzer that delivers accurate RF analysis, no extra equipment needed.

Terms and Conditions

- This program applies to all Tektronix sales regions.
- Program Summary: With the purchase of a new 3 Series MDO oscilloscope, you receive a 3 Series scope at the price of the next lower bandwidth (Ex. Purchase an MD034 3-BW-500 at the price of an MD034 3-BW-350).
- This offer applies to only new 3 Series MDO product sales, during the sales program period, to end-customers directly by Tektronix or to any customers by Tektronix authorized channel partner.
- This program can be combined with education discount.
- Tek Encore and demo units do not qualify for this promotion.
- This program cannot be combined with Volume-Based agreement (VBA).
- Tektronix reserves the right to change or cancel this program at any time.
- All orders must be received and placed by 31 March 2026.
- Program terms and conditions can be found at www.tektronix.com/promotions.
- Any purchases are subject to Tektronix applicable terms and conditions available at tek.com/en/terms_and_conditions
