Tektronix®

# CONNECT to the POWER

Save up to 50% on a new IsoVu probe with this promotion.

**Up to 50% Off**

## Up to 50% Off

Eliminate common mode interference with IsoVu™, ensuring accurate and reliable data even in the most demanding environments.

## IsoVu™ Isolated Voltage Probes

Uncover the fast, floating signals that your non-isolated probes are hiding. IsoVu Probe Technology virtually eliminates common mode interference using optical isolation. This delivers accurate differential measurements on reference voltages slewing ±60kV at 100V/ns or faster. And with our IsoVu Generation 2 design, you get all the benefits of IsoVu technology at 1/5 of the size.

## Bundle up and Save

Get up to 50% off the second-generation IsoVu Isolated Differential Voltage Probes (TIVP) when you purchase two or more probes in a bundle on the same P.O.

**Enhance efficiency, flexibility, and comprehensiveness with multiple probes.**

- **Multiple Probing Points**: Collect data from multiple sources simultaneously for a comprehensive system analysis.
- **Faster Test Setups**: Cut testing time by gathering data simultaneously for quicker troubleshooting.
- **Flexible Setups**: Adapt to different testing scenarios for customized tests.
- **Concurrent Testing**: Test multiple nodes or devices simultaneously for an efficient system assessment.

| Probe | Discount |
|---|---|
| TIVP02 | 50% |
| TIVP05 | 35% |
| TIVP1 | 35% |
