Offer valid until 1.31.22

TERMS AND CONDITIONS

Offer applies to any 3- or 5-year standalone extended warranty/repair contract, new or renewal. Free standard manufacturer recommended calibration (determined per instrument) provides one (1) single Calibration or Functional Verification Event, (whichever is applicable to the product), with certificate and repair as needed at Tektronix Service Depot. Calibration coverage is limited to the recommended calibration interval and must be performed within 12 months. Repair service includes instrument(s) brought to original factory specifications. This offer does not apply to a customer's existing calibration service contracts with Tektronix and is valid in US or Canada only. Tektronix has the right to refuse acceptance of this promotion at its sole discretion. Void where prohibited.

This offer is based on the contracted equipment being fully functional and not currently in need of repair. If this is not true for all models, please contact your Service Representative to arrange a repair RMA prior to the activation of this agreement.
