TekDay 2025 - High Speed

Tektronix | Anritsu | iPASS

March 12, 2025 (Wed)
9.00am - 5.00pm
Amari SPICE Penang

High-Speed Serial communication is a critical component in today's data-intensive markets: data centers, artificial intelligence (AI), and high-performance computing.

As next-generation serial standards and data communication requirements evolve, they introduce new testing challenges and push the limits of current compliance and debugging tools. To help you navigate these complexities, **Tektronix**, in collaboration with **Anritsu** and **iPasslabs Technology**, is hosting **TekDay - High Speed 2025**.

Agenda

Time	Topic
0830 - 0900	Registration
0900 - 0915	Opening and Agenda Briefing
0930 - 1030	**Transforming High Speed Compliance Testing: Latest Compliance Solutions Journey for HSIO Tx and Rx**
1030 - 1100	Booth Demo and Break
1130 - 1230	**Quick, Accurate, Repeatable Testing of High-Performance Computing Standards**
1230 - 1330	Lunch and Demo
1330 - 1430	**Unleashing PCIe® 6.0: Mastering Receiver Link Equalization for Ultimate Performance**
1430 - 1500	Booth Demo and Break
1500 - 1600	**Mastering Signal Integrity: Advanced Techniques for High-Speed PCB, Interconnect, and Cable Testing**
1600 - 1615	Closing & Event Ends

Presenters

Subhasis Bera
Global Business Manager
Tektronix

Eric Shen
Co-Founder & CEO
iPasslabs Technology

Lawrence Leng
Lead Technology Advisor
Anritsu

In Colloboration with:

Anritsu
